Tel	+82-62-951-4501	Fax	+82-62-951-4502
Company Introduction	<p>T.I.P International Co., Ltd. strives to be a trusted brand of personal care products for health and better life. We are always working closely with partners to ensure that our products are environmentally friendly and safe.</p> <p>During the first two years since establishment, the company grew by outsourcing various high quality, reliable electrical and electronic parts to global manufacturers. Through our accumulated experience and values, we have established a mature R&D organization, and we have come to bring highly practical products manufactured based on innovation and collaboration.</p> <p>We are constantly evolving and are committed to creating the best products. We want to create a better future with you.</p> <p>T.I.P International Co., Ltd. will continue to be devoted to the development and supply of innovative, top quality and safe products which meet the needs of customer, through scientific research and development.</p>		

**Introduction to
Technology &
Product(s)**

Product name	IONBLUE Shake-Off (Automotive/Portable air clean ionizer with suppressing drowsiness)
Explanation	<ol style="list-style-type: none"> 1. Special wavelength LEDs play a role in suppressing sleepiness by inhibiting the production of melatonin, a hormone that causes sleepiness 2. Air purification using ion generator 3. One million + and - ions are generated per cc 4. Bundle of micro fine carbon fiber electrodes does not generate the unintended ozone because ion cluster can be emitted at the lowest voltage level 5. Use Li-polymer battery by USB cable

Product name	IONBLUE SweetDream (Sleep induction lamp with air purification function)
Explanation	<ol style="list-style-type: none"> 1. Special wavelength LEDs induce sleep by promoting the production of melatonin, a hormone that causes sleep. 2. Air purification using ion generator and filter 3. One million + and - ions are generated per cc 4. Bundle of micro fine carbon fiber electrodes does not generate the unintended ozone because ion cluster can be emitted at the lowest voltage level 5. Selected as Good Design (GD) by whale-themed design that everyone can prefer

Product name	Dr.mallife (Scalp care for seborrheic scalp trouble and hair loss prevention)
Explanation	<ol style="list-style-type: none"> 1. Reduce dandruff and hair loss through special wavelength LED <ul style="list-style-type: none"> - Special wavelength LED to kill Malasejia bacteria to alleviate dandruff caused by seborrheic dermatitis - Special wavelength LED to prevent hair loss by promoting collagen production and strengthening hair follicle 2. Apply galvanic ion to facilitate skin irritation and nutrition through electrical stimulation 3. Cooling system prevents fever hair loss and fever after care
